# SWAN SYSTEMS RANGE

We have exclusivity of the Swan Systems product in the North-West as we are a Swan Systems Partner.

Our Swan Systems range is vinyl wrapped aluminium framed with a variety of frame finishes to choose from.

The Swan Systems door frames are made from aluminium reinforced MFC. The door frames come in 13 different finishes!

We have full size displays and samples available to view in our showroom. We bring out samples on a home visit so you can see each frame finish in your home! These are also available to view on our website along with a gallery of our previous work.

# HARRISON MONARCH RANGE

Our Harrison Monarch range is steel framed with a variety of colour finishes to choose from.

This is our most affordable range, despite the exceptional quality of the sliding doors.

The bottom running tracks come in the colours White, Black and Silver which we match appropriately to the frame colour chosen.

The door frames come in the colours:

- White
- Light Grey
- Silver
- Graphite
- Black

# SHAKER SLIDE RANGE

Our Shaker Slide range is 75mm thick steel framed and is perfect if you are looking to achieve the Shaker design, however this is not essential.

The bottom running tracks come in the colours White, Black and Silver which we match appropriately to the frame colour chosen.

The door frames come in the colours:

- White
- Light Grey
- Cashmere
- Stone Grey
- Graphite

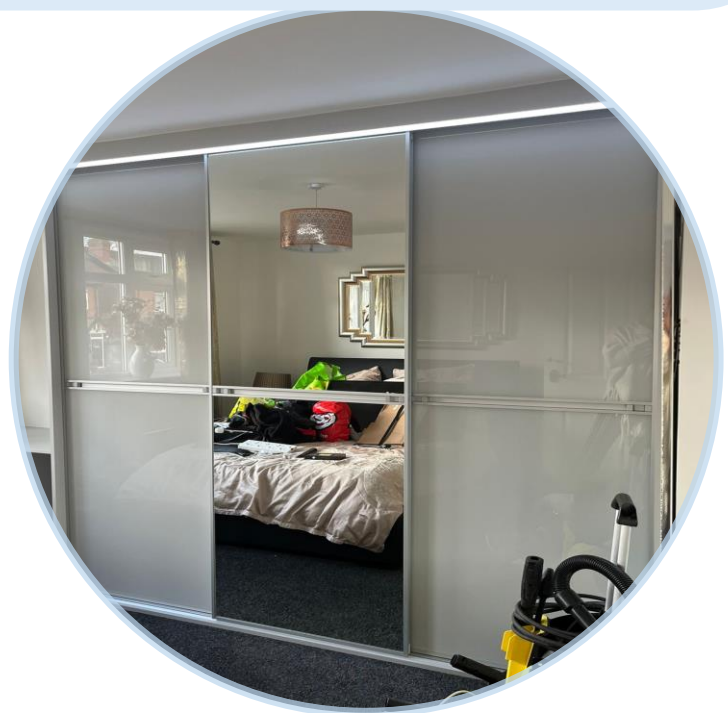

# MINIMALIST RANGE

Our Minimalist range is contemporary and modern with an indented handle either side of each door to prevent finger marks! The door frames come in the colour aluminium with a matching aluminium handle.

The handle that is fitted creates a horizontal split through the centre of the door. This is best complimented with mirrors or coloured glass fitted into the doors.

# ELLIPSE RANGE

Our Ellipse range is an Italian influenced, modern, anodised aluminium sliding door system. This range is super sturdy and practical.

The door frames are thicker and have a bevelled edge for an easy opening. The door frames and running tracks all come in a brushed aluminium finish.
